

Main Product Features :

1. Sign in to the dashboard as an admin

The volunteers coordinator will be able to sign in to the service dashboard with supreme permissions. The admin dashboard view will supply a dedicated features that includes:

- Add, Edit or delete a volunteer to/from the DB and specify it's specializations.
- Accept or decline a product that has been promoted by a volunteer to be in the store shelves.
- Send push notifications to all volunteers.
- Add a pinned post to be displayed to all.

2. Add a suggest for a product to be sold in the store.

- Each volunteer can suggest a product to be sold in the store but for it to be sold it has to go throw a vote with all users, meaning how many users think the product is good and should be sold in the store and how many don't.

3. Sign in to the dashboard as a volunteer.

- View the pinned posts by admins.
- View products that been promoted and vote on them.

	Capability	Capability Description	Risk Level
1	Add new volunteer	the system's admin will have the capability to add new volunteers with certain authorizations	Critical
2	Manage products	Adding or removing a product from the store.	Medium
3	Persistent Database	One of the primary requirements of the client is the ability to store & manipulate data.	High
4	Sign-up and Log-In system	The app is intended for the use of only the organization's volunteers, thus requires user verification	Medium
